Ambalangoda, Sri Lanka. ravindudilshanyk.me

PROFESSIONAL SUMMARY

Final-year Computer Science undergraduate at Uva Wellassa University of Sri Lanka with hands-on experience building full-stack web and desktop applications using React, Node.js, TypeScript, FastAPI, and PostgreSQL. Experienced in developing REST APIs, authentication systems, real-time applications, and database-driven solutions through freelance and university projects. Seeking a Software Engineering Internship or Junior Software Engineer role.

EDUCATION

Bachelor of Science in Computer Science and Technology

Uva Wellassa University of Sri Lanka

2022 - 2026 Badulla, Sri Lanka

GPA
3.39 / 4.0

WORK EXPERIENCE

Pinklet POS - Desktop Point-of-Sale Application

Freelance Full-Stack Developer

2025 - 2026 Pinklet Cakes & Gift Items Shop · Batapola, Sri Lanka

https://github.com/ravindudilshanyk/pinklet-pos

Electron.js · React · TypeScript · Node.js · Express.js · SQLite · Prisma ORM · Tailwind CSS

- Built an offline-first desktop POS that replaced manual billing and paper records for a retail bakery.
- Architected a TypeScript monorepo across Electron, React, Node.js, and Prisma for end-to-end consistency.
- Developed a billing engine with profit calculation, tiered discounts, and loyalty coin redemption.
- Added pre-order tracking with status updates, advance payments, balances, and overdue alerts.
- Created analytics dashboards and designed REST APIs supporting billing, inventory management, and reporting operations across 1 owner and multiple cashier roles.

PROJECTS

Smart Route LK – Intelligent Bus Booking Platform

Solo Project

2025 - 2026 Ambalangoda, Sri Lanka.

https://github.com/ravindudilshanyk/smart-route-lk-web

React · Node.js · Express.js · PostgreSQL · Socket.IO · Tailwind CSS · JWT · PDF Kit · Google OAuth

- Built segment-based seat allocation and optimized PostgreSQL database structures for distance-based fare booking.
- Engineered a route search engine that uncovered valid multi-bus connections with transfer-time checks.
- Implemented JWT authentication, Google OAuth, and role-based access control (RBAC) across four user roles.
- Built QR ticketing with bus-specific validation, PDF generation, and a real-time Socket.IO conductor dashboard.
- Delivered booking, seat selection, PayHere payments, WhatsApp QR delivery, GPS tracking, and PDF tickets.

Pinklet - Interactive Gift Customization Platform

University Group Project

2025 Uva Wellassa University of Sri Lanka

https://github.com/ravindudilshanyk/pinklet

React.js · .NET · PostgreSQL · Three.js · PayHere

- Built a budget-based gift recommendation engine using occasion, age, and gender preferences.
- Added a manual package builder with live pricing for custom gift combinations.
- Developed cake ordering with image upload, owner quoting, and a Three.js 3D customization preview.
- Launched a vendor marketplace that expanded inventory with products from local sellers.
- Led frontend architecture and collaborated using Git workflows across buyer, vendor, and admin experiences.

PROJECTS

Rent IT - Online Rental Platform

University Group Project

📅 2024 📍 Uva Wellassa University of Sri Lanka

🔗 <https://github.com/ravindudilshanyk/RentItNew>

React (Vite) · PHP · MySQL · PayHere

- Created time-aware availability logic that prevented double bookings during active rentals.
- Implemented OTP-based handover, return tracking, damage reporting, and paid rental extensions.
- Integrated PayHere payments and enhanced workflows for renter, owner, and admin roles.

Vote SL - A Secure E-Voting Research Prototype

University Research Project

📅 2025 - Present 📍 Uva Wellassa University of Sri Lanka

🔗 <https://github.com/ravindudilshanyk/VoteSL-Mobile>

Blockchain · Facial Recognition · Next.js · Node.js · React Native · PostgreSQL · Docker

- Built a dual-platform e-voting system with React Native, Next.js, PostgreSQL, and REST API integration.
- Used blockchain-based vote storage to create tamper-proof audit trails for submitted ballots.
- Applied facial recognition authentication to reduce impersonation and duplicate voting risks.
- Enforced role-based access control across 5 election management roles.
- Supported 2 election types (presidential & parliamentary) with multilingual UI in Sinhala, Tamil, and English.

TECHNICAL SKILLS

Languages

JavaScript, TypeScript, PHP, Java, Python

Frameworks & Databases

React.js, Next.js, Node.js, Express.js, FastAPI, Tailwind CSS, Electron.js, PostgreSQL, MySQL, MongoDB, SQLite

Tools & Software Engineering

Git, GitHub, Linux, Postman, Figma, REST APIs, JWT Authentication, OAuth, Database Design, OOP, Agile Development, AWS, Docker, GitHub Actions

CERTIFICATIONS & COURSES

IBM Full Stack Software Developer - Coursera

AI For Everyone, DeepLearning.AI - Coursera

VOLUNTEERING

IEEE Student Branch, Uva Wellassa University

- Designed accessible, user-friendly interface layouts for the official IEEE Computer Society chapter website
- Collaborated with the development team to ensure design consistency and seamless implementation across all pages
